March 25, 2020

Dear Donna ISD Parents,

As we informed you previously, students were initially scheduled to return to school April 6, 2020. However, due to the growing concerns of the Coronavirus, Donna ISD has decided to remain closed until further notice as a precautionary measure.

At this time, we are happy to report that our schools have already distributed instructional assignment packets to their students. Our online instruction is also up and running at http://www.donnaisd.net/Academic-Instruction. It is comforting to know that our students are taking their home assignments seriously. We have seen social media posts showing students actively involved and engaged.

These assignments will carry our students through April 6. We are currently working on creating new instructional material that will be posted on Thursday to allow our students to continue learning from home. The instructional material will be updated and posted every two weeks. Parents who need additional instructional material can make arrangements with their campus by calling the school directly or checking their website.

For other assistance, we have made four options available for you.

- Contact your campus directly. Your calls will be forwarded to a campus employee who will be ready to assist you.

- Call the district’s Police Department at (956)464-1735. Your question or concern will be forwarded to the appropriate person who can help you.

- Communicate through our email support service by emailing DonnaISDclosure@donnaisd.net.

- Call our Administration Office at (956)464-1600.

At this time, we will continue to provide the grab-and-go breakfast and lunch meals. On Tuesday, we served approximately 5,000 breakfast and 5,000 lunch meals to our children. This program is important because we want to make sure that our students continue to have a nutritious meal so they can work at their full potential from home. Please visit our website (www.donnaisd.net) for our ten designated locations throughout the community.

Thank you for your patience and stay safe.

Sincerely Dr. Hafedh Azaiez
Donna ISD Superintendent
